The Mosque at Berlin Germany

This beautiful Mosque built in the heart of Berlin in 1925 is a standing monument of Muslim architecture and the zeal and devotion of members of Lahore .Ahmadiyya Movement for the cause of Islam in the west. The Mosque has become a place of special interest for visitors to the historic city of Berlin being an active Islamic Centre for the last eighty years.

Badly damaged during the Second World War, necessary repairs have been done by the worldwide Lahore Ahmadiyya Community with financial and technical help from the German authorities. Also due to the ravages of time there is still much more to do to restore this Mosque to its original glance.

With this Eid Card a fervent appeal is made for contributions to be remitted to:
